

Heatshrink Tubing

Heatshrink tubing is the ideal way to create a tight, professional finish on any wire, hose or cable management project.

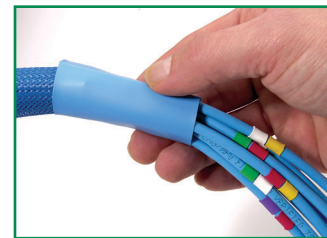

Once shrunk, the tubing will hold its reduced state even in elevated temperatures.

The wide range of available colors and diameters makes Techflex Heatshrink Tubing a perfect solution for any termination application.

Measure the heatshrink tubing to length and cut with a scissor. The thickness of your bundle, as well as the desired final appearance, will determine the length of the tubing you cut. Generally, a piece 1 1/2" - 2" long will accommodate almost any need (such as this bundle of 10 CAT-5 network cables). Single wires, or smaller bundles, require shorter pieces.

Slip the tubing over the bundle and position it so that both the sleeved and unsleeved portions are sufficiently covered. Notice the small pieces of tubing installed on single wires as part of a color coding system. If your project requires multiple operations, always work up from the smallest to the largest bundle.

Gently apply heat from a heat gun, hair dryer or torch with an appropriate attachment. Keep the heat source far enough away so that hot metal or direct flame don't come in contact with the tubing, wires or sleeving. Move the heat around the bundle to prevent damaging the sleeving and to ensure that all areas of the tubing have been shrunk. Once cooled, your installation is complete.

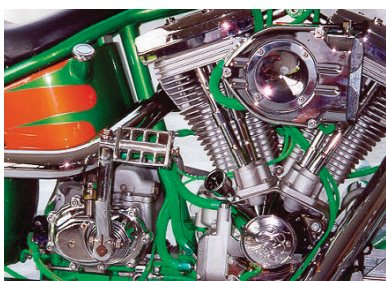

Milwaukee High Quality Heat Guns & Accessories

Production quality heat guns from one the finest names in tools. These high quality guns will provide years of dependable service under the most intensive conditions. High strength, impact resistant cases with heavy duty motors and heating elements.

- Dual Temp - HGD8975-6
- Variable Temp LED Display - HGL8988-20
- Accessory Kit - HGA49-80-0300

Matching braided sleeving and 3/1 heatshrink tubing to your project colors creates a unified, finished look to the entire job, as in this Harley-Davidson custom show chopper.

3/1 Heatshrink Tubing

3/1 Heatshrink Tubing is the most versatile of the heatshrink products. The high shrink ratio ensures that the tubing will slip over large connectors or plugs and still provide a tight, professional seal.

Nominal Size	Part #	Unshrunk Diameter	Shrunk Diameter	Bulk Lengths	Mini Spool	Available Colors
1/4"	H3N0.25	6mm	2mm	100'	25'	10 in-stock colors
3/8"	H3N0.38	9mm	3mm	100'	25'	10 in-stock colors
3/4"	H3N0.75	18mm	6mm	100'	25'	10 in-stock colors
1"	H3N1.00	24mm	8mm	100'	25'	10 in-stock colors
1 1/2"	H3N1.50	40mm	14mm	100'	25'	10 in-stock colors
2"	H3N2.00	50mm	17mm	100'	25'	BK, WH

Shrinks to 1/3 it's original diameter!

2/1 Heatshrink Tubing

When economy is the driving force, 2/1 Heatshrink Tubing is the answer. Not as versatile as a high ratio shrink product, 2/1 will still slide easily over small inline splices and connectors and provide a tight seal in many applications.

Nominal Size	Part #	Unshrunk Diameter	Shrunk Diameter	Bulk Lengths	Mini Spool	Available Colors
1/8"	H2N0.13	3mm	1.5mm	100'	25'	10 in-stock colors
1/4"	H2N0.25	6mm	3mm	100'	25'	10 in-stock colors
3/8"	H2N0.38	9mm	4.5mm	100'	25'	10 in-stock colors
1/2"	H2N0.50	13mm	6.5mm	100'	25'	10 in-stock colors
3/4"	H2N0.75	18mm	9mm	100'	25'	10 in-stock colors
1"	H2N1.00	24mm	12mm	100'	25'	10 in-stock colors
1 1/2"	H2N1.50	40mm	20mm	100'	25'	10 in-stock colors
2"	H2N2.00	50mm	25mm	100'	25'	10 in-stock colors

Economical 2/1 tubing shrinks to 1/2 it's original diameter!

Ties & Straps

When heatshrink tubing just isn't right for your application, cable ties or Velcro straps are the answer. Economical and easy to install in the field, these termination solutions produce a neat appearance on any cable management application.

High Strength Nylon Cable Ties

Easy to use nylon cable ties are perfect for virtually any bundling or management application. Economical, yet strong ties resist heat and abrasion. Available in a wide range of colors & sizes.

Large Nylon Cable Ties - (Metal Barb)TYR7.50 - (Plastic Barb)CBR7.50
Small Nylon Cable Ties - (Metal Barb)TYR3.75 - (Plastic Barb)CBR3.75

Velcro Brand Straps

Reusable and flexible One-Wrap brand straps are perfect for temporary management of cords, cables and wires. Can be reused hundreds of times. Available in a wide range of colors.

Small - VST8.00
Large - VST12.0

Stainless Steel Cable Ties

High temperature stainless steel cable ties tighten easily without special tools. Perfect for installing heavy duty and high temp sleeving. Available in 2 lengths.

Large - SST8.00SS
Small - SST4.00SS
