

Flexo NR

Self-Fitting Protective Oversleeve

Flexo Noise Reduction (NR) is a biaxially braided sleeving combining monofilament and multifilament PET yarns to create a full coverage expandable sleeve that substantially reduces noise on wires, tubes and hoses. The lightweight, rugged construction also provides protection from abrasion and vibration that is far superior to foam harness sleeves. NR expands for easy installation over splices and connectors and is flexible enough for tight radius applications.

The braided construction will not hold moisture and drains quickly when immersed. NR is used in body wiring harnesses, instrument panel and lighting wiring, cable & hose assemblies, and other limited access applications where noise reduction is desirable.

- **Excellent Noise Suppression**
- **Abrasion Resistant**
- **Extremely Lightweight**
- **Attractive Appearance**
- **Does Not Trap Heat or Moisture**
- **Rated to 257°F**
- **Low Temperature Flexibility to -94°F**

| Nominal Size | Part # | Expansion Range | | Standard Spool Put-Ups | | Available Colors | Lbs/100' |

| 1" | NRN1.00BK | 1" | 1 5/8" | 250' | 50' | Black (BK) | 2.4 |

F6 Quiet

Nostalgic Look and Feel! Modern Day Performance!

FLEXO F6 QUIET is specially engineered to reduce the noise associated with wire harnesses or cables installed in hard to reach areas such as door panels or dashboards.

The special construction suppresses noise from loose harnesses moving against body or dash panels. F6 Quiet also has a soft and flexible feel, reminiscent of old style cotton loom, making it the perfect product for restoration projects.

- **Retro Look for Audio Cables**
- **Soft Classic Cotton Loom Feel**
- **Cut and Abrasion Resistant**
- **Cuts Cleanly with Hot Knife**
